Vital Spark 2024/25

Submitting an application

How to apply

Thank you for your interest in applying for Vital Spark. You can apply in a variety of formats and we encourage you to use the format you are most comfortable with.

Each strand of the programme has a different online portal for you to make your application. When you arrive in the application portal you will be able to complete your personal details using the form, then choose to either:

- Answer the questions by typing (or copying and pasting your answers from a word processor of your choice)
- OR upload a video file that answers the questions
- OR upload a voice recording that answers the questions.
- And you may also decide to provide us with a link to support your application.

If you want to submit a video or voice application you can use the voice or video recording guidance sheet which will guide you through the process.

You can also download PDFs from the website which give you the questions you need to prepare answers for. This is sometimes a bit easier than doing it all directly in the application portal.

When your application is ready, please click on the link below to access the application portal for the strand you are applying for:
