1) Welcome Song

Welcome, welcome, everybody
welcome

It's such a welcoming sound

Welcome, welcome, everybody
welcome

Thank you for welcoming us
down!

Welcome, welcome, everybody
welcome

It's such a welcoming sound

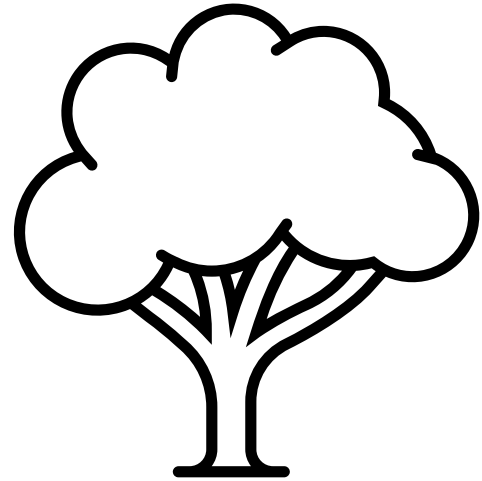

Welcome, welcome, everybody
welcome

It's such a welcoming... x3
SOUND!

2) Park Song

Running in the grassy fields
Dens that we might build
Belly flipping on swings

Feel like I'm sprouting fairy wings
Head back,
Swinging high
Head rush
Toes touching the blue sky

Spooky fun faces hidden in
ancient tree bark

Abbey Park

Victoria park

Laughing loud, grass rolling

Running, skipping, strolling

Bradgate Park,

Broadstone Park

Scootering vroom vroom

Bicycle broom zoom

Skating zoom

I've got the wind in my face

Riding in my chair

Flowers in my hair

So fast, yeah

Feels like I'm flying

(Park Song continued)

Chorus:

In the park

We get along with each other

In the park

A kid says sorry to their little brother

In the park

We make daisy chains

In the park

Nature feels so good

For my brain!

Peacocks

Football socks

Fluffy healthy fox

Shuttlecocks

Blossom smell,

In your nose

Dancing raving squirrel

Tapping toes

Days go on forever!

A precious bird feather

A symbol of change

A pinecone

Feed the ducks quack quack

Cute cat meowing and that

At dusk we saw a real bat

Abbey parks, ancient ruins

Got a stone in my shoe -ins

Medieval lady and lord

In the park you can't get bored

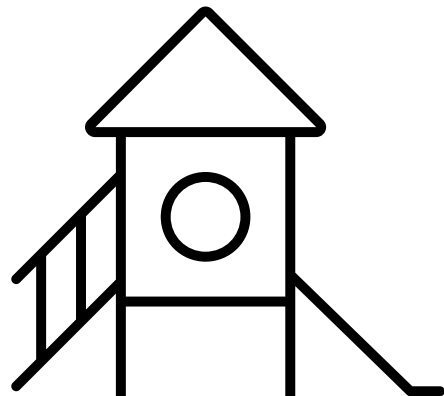

Free as Bradgate Park's
medieval deer

Young people over there

Drinking warm beer

Older ladies chatting and
laughing so loud

Big family picnic, such a joyful
crowd

Chorus:

In the park

We get along with each other

In the park

A kid says sorry to their little
brother

In the park

Cheeky pigeons playing chase

In the park

My heart feels free in this green
space!

(Park Song continued)

Please Mumma one more go
Make this day go slow
Petals wooshed in
Blossom breeze
Creating flower snow

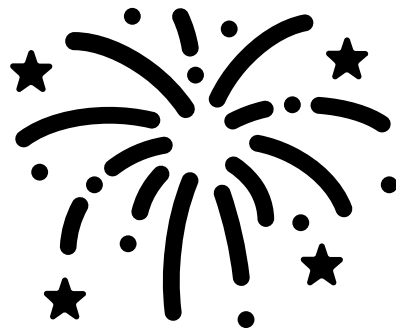

Please Mumma one more go
Make this day go slow
That squirrel keeps following me
It won't leave me alone
Ice cream van,
Ice cream van,
Yeah, it's ice cream van
Lemon Ice, Screwball,
Bubblegum,
Raspberry ripple,
Coconut, Strawberry,
Yum yum yum

Clouds shaped like animals in
the sky
Butterfly kaleidoscopic fill my
eyes
We all had a laugh
And we joked around
When I whizz on the bike
I go the speed of sound

Chorus:

In the park
We get along with each other
In the park
A kid says sorry to their little
brother
In the park
We made daisy chains
In the park
Nature feels so good for my
busy brain!

Are the best
She loves me
And my...

(Golden Mile continued)

The big wheel

Red and green
pink and gold
holding hands
with my...

Chorus:

La la la la la family x3

4) Bones

Bones, crowns, worms.

Let me tell you about worms -
Worms, worms,

Beneath the ground
Recycling without a sound

Apart from worms
You might find
Bits of old garden forks,
Some natural chalk,
Maybe some clay
Nature's playdough
To squish, squash and play

Ooooh WHAT'S THIS?
A Roman coin from city of
Les-tah long long ago
IT'S LIKE time travelling
Into the earth below

BUT BACK TO wiggly worms,
They're working so hard
So we can enjoy chips, peas
And rainbow chard!

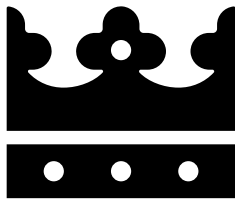

...

THEY ARE ALWAYS humbly
Making the soil all rich
So the seeds can grow
A symbiotic kinda sitch.

Bones, crowns, worms.

(Bones Continued)

Let me tell you about crowns-
Crowns can be heavy
Crowns can be bright
Crowns can hold thousands
Of jewels shining bright

And in Les-tah,
Deep down in the ground
Underneath an average car
Park
A crown wearer was found
How outrageous, have you
heard?
They found the royal bones of
King Richard III!
-Oh look, it's the ghost of King
Richard the Third-
He's here today to be
interviewed about the event:
*Well, it's outrageous to be
Buried underneath
Such an average car park
For so long!
In my life I was eating luxurious
dinners*

*Of peacock, guineafowl and
Swan*

*Even the Aldi car park down the
road is more luxurious than this
one.*

My kingdom for a car park!

*At least I gave you all a good
laugh and a lark - goodbye!*

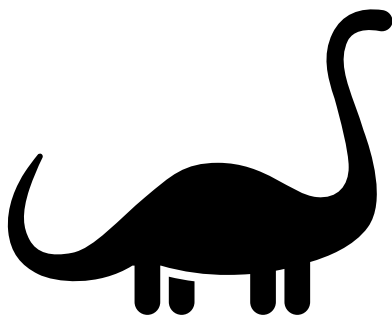

Bones, crowns, worms.

Let me tell you about bones -
We all have bones
To keep together and strong
If you didn't have have bones
It'd all go wrong,
You'd be just like jelly mushed
with custard
You'd get a little flustered
Wobbling around
Like a blob of slimy mustard.
For sure Bones are
Hardy powerful things,
And to protect your bones and
Insides

(Bones Continued)

You've got your lovely skin
Bones can fossilise
That last thousand years
Even millions.
Near Les-tah,
Bones were found
By working civilians
A nearly complete Cetiosaurus
Dino
Dug up back in 1968!

Isn't he grand? He's so great!
Oo I'd love a prehistoric
dinosaur to be my best mate.

He's called the Rutland dinosaur
Now lives here
In Les-tah museum!

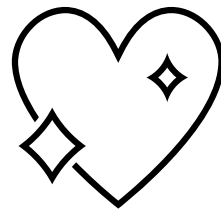

- Please you two, can we stay
and go and see him? -
- Maybe! -

What next?

Well, if you dug much deeper
You'd have to be really brave
You'd hit the earth's crust
And it would melt your spade.
If you had special powers to
Walk through lava
You'd get to Australia,
What an adventurous palava!

Bones, crowns, worms.

5) Affirmations

I've got people around me
People that love
And believe in me
I get wiser every day
Like an old oak tree.

I am kind.
I am brave.
I am different.
We all are important.

(Affirmations Continued)

I am clever in my own way.

I am good

At many different things.

By being myself,

Myself makes the world better,

Together.

I am loud sometimes.

And I am quiet.

Our voices are important

The world needs you ~oooh~

I am kind.

I am brave.

I am different.

We all are important.

I've got people around me

People that love

And believe in me

I get wiser every day

Like an old oak tree.

Kindness is cool

Art is for everyone

Singing is for you and me

Music is for everyone -

Especially children, even aliens,

Even big non-cute humans.

-Oh yeah adults, sorry adults-

I am kind.

I am brave.

I am different.

We all are important.

I am clever in my own way.

I am good

At many different things.

By being myself,

Myself makes the world better,

Together.

I am loud sometimes.

And I am quiet.

Our voices are important

The world needs you ~oooh~

I am kind.

I am brave.

I am different.

We all are important.
