### 2) Park Song

Running in the grassy fields  
Dens that we might build  
Belly flipping on swings

Feel like I'm sprouting fairy wings  
Head back,  
Swinging high  
Head rush  
Toes touching the blue sky

Spooky fun faces hidden in  
ancient tree bark

Abbey Park

Victoria park

Laughing loud, grass rolling

Running, skipping, strolling

Bradgate Park,

Broadstone Park

Scootering vroom vroom

Bicycle broom zoom

Skating zroom

I've got the wind in my face

Riding in my chair

Flowers in my hair

So fast, yeah

Feels like I'm flying

**(Park Song continued)**

**Chorus:**

*In the park*

*We get along with each other*

*In the park*

*A kid says sorry to their little  
brother*

*In the park*

*We make daisy chains*

*In the park*

*Nature feels so good*

*For my brain!*

Peacocks

Football socks

Fluffy healthy fox

Shuttlecocks

Blossom smell,

In your nose

Dancing raving squirrel

Tapping toes

Days go on forever!

A precious bird feather

A symbol of change

A pinecone

Feed the ducks quack quack

Cute cat meowing and that

At dusk we saw a real bat

Abbey parks, ancient ruins

Got a stone in my shoe -ins

Medieval lady and lord

In the park you can't get bored

Free as Bradgate Park's  
medieval deer

Young people over there

Drinking warm beer

Older ladies chatting and  
laughing so loud

Big family picnic, such a joyful  
crowd

**Chorus:**

In the park

We get along with each other

In the park

A kid says sorry to their little  
brother

In the park

Cheeky pigeons playing chase

In the park

My heart feels free in this green  
space!

**(Park Song continued)**

Please Mumma one more go  
Make this day go slow  
Petals wooshed in  
Blossom breeze  
Creating flower snow

Please Mumma one more go  
Make this day go slow  
That squirrel keeps following me  
It won't leave me alone  
Ice cream van,  
Ice cream van,  
Yeah, it's ice cream van  
Lemon Ice, Screwball,  
Bubblegum,  
Raspberry ripple,  
Coconut, Strawberry,  
Yum yum yum

Clouds shaped like animals in  
the sky  
Butterfly kaleidoscopic fill my  
eyes  
We all had a laugh  
And we joked around  
When I whizz on the bike  
I go the speed of sound

**Chorus:**

In the park  
We get along with each other  
In the park  
A kid says sorry to their little  
brother  
In the park  
We made daisy chains  
In the park  
Nature feels so good for my  
busy brain!

Golden Mile  
Belgrave road

Are the best  
She loves me  
And my...

**(Golden Mile continued)**

**Chorus:**

La la la la la family x3  
~oooooooo~

Golden Mile  
Belgrave road  
Spin me round  
The big wheel

Red and green  
pink and gold  
holding hands  
with my...

**Chorus:**

La la la la la family x3  
~oooooooo~

**4) Bones**

**Bones. Crowns. And worms.**

Let me tell you about worms -  
Worms, worms,

Beneath the ground  
Recycling without a sound

Apart from worms  
You'll find a garden fork,  
Some natural chalk,  
Maybe some clay  
Nature's playdough  
To squish, squash and play

Ooooh WHAT'S THIS?  
A Roman coin from  
Les-tah long long ago  
IT'S LIKE time travel  
Into the earth below

Wiggly worms,  
They're working so hard  
So we can enjoy chips, peas  
and chard!

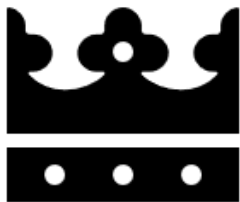

THEY humbly make the soil all  
rich

So the seeds can grow  
A symbiotic kinda sitch.

**Bones. Crowns. And worms. x2**

**(Bones Continued)**

Let me tell you about crowns-  
Crowns can be heavy  
Crowns can be bright  
Crowns can hold thousands  
Of jewels shining bright

In Les-tah,  
Deep down in the ground  
Underneath a car park  
A crown wearer was found  
How outrageous, have you  
heard?  
They found the royal bones of  
King Richard III!  
- Oh look, it's the ghost of King  
Richard the Third -  
He's here today to be  
interviewed about the event:  
*Well, it's very disappointing to  
be buried underneath  
Such an average car park  
For so long!*  
*In my life I was eating luxurious  
dinners  
Of peacock, guineafowl and  
Swan*

*Even the Aldi car park down the  
road is more luxurious than this  
one.*

*My kingdom for a car park!*

*At least I gave you all a good  
laugh and a lark - goodbye!*

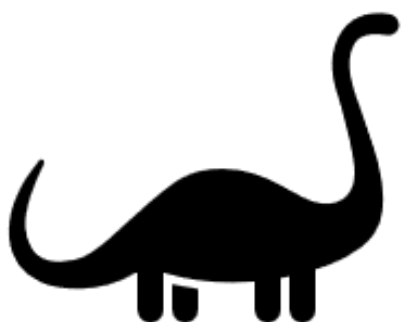

**Bones. Crowns. And worms. x2**

Let me tell you about bones -  
Fit together and strong  
If you didn't have have bones  
It'd all go wrong,  
You'd be like jelly mushed with  
custard  
You'd get a little flustered  
Wobbling around  
A blob of slimy mustard.  
Bones can fossilise  
In an Egyptian mummy  
In layers of rock  
Like at Rutland quarry  
A dinosaur was found in 1968  
Isn't he grand? Isn't he great?

**(Bones Continued)**

I'd love a Cetiosaurus  
To be my best mate,  
He's called the Rutland  
dinosaur  
Now, in Les-tah museum!

*- You two, can we stay and go  
and see him? -*

*- Later!*

*But we gotta keep digging! -*

Well, digging deeper than that  
You'd be more than brave  
You'd hit the earth's crust  
And it would melt your spade!

**Bones. Crowns. And worms. x2**

Let me tell you about bones!

**5) Affirmations**

I am kind.

I am brave.

I am different.

We all are important.

I am kind and I am brave

I'm different in brilliant ways

My heart tells me the right thing  
to do

Oooooooo

I am quiet and sometimes I'm  
loud

Of myself I am always proud

All our voices are important

The world needs you

Oooooooo

I've got people all around me

People that love

And believe in me

I get wiser every day

Like an old oak tree.

Kindness is cool

Art is for everyone

Singing is for you and me

**(Affirmations Continued)**

Music is for everyone –  
Especially children, adults and  
even aliens!

I am clever in my own way.

I am good

At many different things.

By being myself,

Myself makes the world better,

Together.
